TECHNOLOGY · RISK · RESILIENCE

# Przemysław Maliński

Independent Technology Advisor · ICT Risk · Operational Resilience

## Executive profile

More than 30 years of experience in designing, implementing, developing and operating IT environments. I combine business, technology and operational perspectives to support organizations in ICT risk, information security, business continuity and complex project delivery.

| | | |
|---|---|---|
| **ICT Risk & Compliance** | **Operational Resilience** | **BCP / DRP** |
| **Cybersecurity** | **Enterprise Infrastructure** | **Project Management** |
| **Microsoft Azure** | **Business Analysis** | **IT Service Management** |

## Selected achievements

### Banking ICR project

Customer-side project manager responsible for technology assessment, tendering, supplier selection, implementation and production launch. Budget: PLN 4.5 million; duration: approximately 16 months.

### Global Microsoft infrastructure

Planning and delivery of Windows Server 2016/2019 and Azure migrations, optimization of distributed infrastructure and administration of AD, DHCP and DNS.

### Information security in banking

Security policies and procedures, risk identification, audit participation and assessment of technology used to process financial data.

### Enterprise engagements

Audits and implementations for industrial, energy and public-sector organizations, including KGHM, ENEA, Tauron and the City of Wrocław.
